

REMARKS

Claims 11 and 36-46 are allowed. Applicants cancel, without prejudice, claims 1-10 and 12-35 which were previously withdrawn from consideration as directed to a nonelected invention. Applicants note that prosecution on the merits has been closed, and that this Office Action relates only to certain remaining formal matters. Issues raised by the Examiner will be addressed below in the order they appear in the prior Office Action.

1. Applicants enclose herewith a paper copy of the sequence listing from the parent application, as well as a statement indicating that the paper copy and the previously submitted CRF are identical.
2. The Examiner indicated references to sequences in the specification that do not contain sequence identifiers. Applicants' amendments to the specification are believed to obviate this objection.
3. The Examiner indicated that figures 6 and 18 contain panels which were not referred to in the description of the drawings. Applicants' amendments to the specification, as suggested by the Examiner, are believed to obviate this objection.

CONCLUSION

In view of the foregoing amendments and remarks, Applicants submit that the pending claims are in condition for allowance. Early and favorable reconsideration is respectfully solicited. The Examiner may address any questions raised by this submission to the undersigned at 617-951-7000. Should an extension of time be required, Applicants hereby petition for same and request that the extension fee and any other fee required for timely consideration of this submission be charged to **Deposit Account No. 18-1945**.
